

**UNIVERSITY OF
CENTRAL FLORIDA**

**Department of Health
Management and Informatics**

The image features a stethoscope resting on a collection of medical and data-related documents. The documents include a color-coded chart with a legend for 'Number of' (ranging from 1 to 60), a line graph titled 'Aggregate Person Aged 40-49 and Service Intensity = High', and a table with columns for 'Value', 'Std. Error', 't-value', and 'p-value'. The stethoscope is positioned diagonally across the center of the image, with its chest piece resting on the documents.
